Or, you can have a collection of older CDs that you would like to convert into a more modern format. Anyway, this process is easy. Some assumptions First, some assumptions. Because of this tutorial, it is assumed that the music files you would like to convert to mp3 are on a music CD, and that your computer has an optical disk drive capable of reading and playing music CDs. It is also assumed that you are using the Microsoft Windows operating system on your computer. By the way, this process of converting music files to a CD in mp3 files is called "ripping". To stopopen the optical disk drive of your computer and and music CD that contains the files you would like to convert to mp3. Close the disc drive door. If Windows Media Player is set to be your computer's default CD playing software, then Windows Media Player may open automatically and begin playing the CD. If this does not happen, you'll need to launch Windows Media Player yourself by pressing the Windows Key + R, typing c:\windows\mplayer, and clicking OK.Select Tracks for RippingOnce Windows Media Player is running, click the eAAASwitch to LibraryAAA button in the upper right-hand corner. You'll now see a listing of tracks (music files) that are on the CD. If you'd like to launch Windows Media Player to fill-in the song information automatically, make sure your computer is connected to the Internet; doing this can save you a lot of time because it automatically fills in information like the song name, artist, composer and more. You can use the check boxes to select or deselect the songs you would like to convert; this is useful if you don't need the entire CD converted to mp3.Choose Audio QualityBut wait eAAA before you begin converting your files you need to select the correct rip settings for file type and audio quality. Press the eAAARip settingsAAA button and choose eAAAFormatAAA from the drop-down list. From those options, choose eAAAAMP3.eAAA Next press eAAARip settingsAAA again and choose the eAAAAudio QualityAAA menu. The higher the quality, the better the converted mp3 file will sound, but it will take up more disk space.Rip CDNow you can press the eAAARip CDAAA button. Ripping a CD and converting the files to mp3 can take several minutes. Once the process is completed, you can listen to your new mp3 files or transfer them to an mp3 player or similar device.
